BOTS.FARM

bots.farm - is a cloud platform from XDev, which makes it possible to independently create chatbots, flexibly form their structure and business logic, filling them with content using a wide selection of pre-configured services.

Use ready-made Industry-specific solutions:

- ✓ Corporate Bot
- ✓ Bot for retail
- ✓ Bot for medical institutions
- ✓ Bot for service companies
- ✓ Bot for sports and beauty industry

The main advantages of the platform:

Quick start without the involvement of developers

Unified bot logic for various messengers (Viber and Telegram)

Pre-configured services

Flexible user targeting

Convenient communication with users

Mailing & Survey Services

Customization of the system for your brand

Integrated payments in bots

Extensive analytics on the use of bots

Easy integration with API collection
